

01-自我介绍-1分钟

自我介绍：1 分钟

Question: Please introduce yourself.

(请介绍一下你自己。)

Good morning, professors. My name is Feiyang Chen. I am a senior student majoring in Computer Science and Technology at Wuhan University of Science and Technology. I rank 16th out of 207 students, in the top 7.7 percent.

I am interested in using AI to solve real problems. I led CamTalk, a real-time vision and voice dialogue system. I made a simple key-frame method. It cut data uploads by about 80 percent when the user was silent. I also helped build a streaming speech-to-text, LLM, and text-to-speech system. Its full delay was less than 0.5 seconds.

I also improved a YOLOv8 steel-defect detector with CBAM attention. Its mAP at IoU 0.5 rose from 77.5 percent to about 80 to 81 percent.

These projects gave me practice in error analysis, model tests, and system building. In graduate school, I hope to study large-model reasoning, AI agents, and multimodal learning. Thank you.

中文翻译

各位老师早上好。我叫陈飞扬，是武汉科技大学计算机科学与技术专业的大四学生。我的成绩排名是 207 名学生中的第 16 名，位于专业前 7.7%。我对用人工智

能实际问题很感兴趣。我负责过 CamTalk，这是一个实时视觉和语音对话系统。我设计了一个简单的关键帧方法，使用户安静时的数据上传量减少了约 80%。我还参与构建了语音转文字、大语言模型和文字转语音的流式系统。它的整体延迟低于 0.5 秒。我还使用 CBAM 注意力机制改进了 YOLOv8 钢材缺陷检测器。在 IoU 为 0.5 时，它的 mAP 从 77.5% 提高到约 80%~81%。这些项目让我积累了误差分析、模型测试和系统开发经验。研究生阶段，我希望学习大模型推理、人工智能智能体和多模态学习。谢谢各位老师。

中文提示

学校和排名 → AI 兴趣 → CamTalk (80%、0.5 秒) → YOLOv8+CBAM (80%~81%) → 研究方向。
