

英语问题

保研面试英语系列问题

✨ 以下回答使用简单词汇和短句，方便记忆。每个回答后附中文翻译。

I 1. 自我介绍类

I 1. What can you tell me about yourself? ::

Answer:

My name is Chen Feiyang. I study Computer Science at Wuhan University of Science and Technology. My rank is 16 out of 207. I have experience in AI, big models, and software development. I hope to study big models and intelligent agents in graduate school.

翻译:

我叫陈飞扬，就读于武汉科技大学计算机科学与技术专业。我的成绩排名是16/207。我有人工智能、大模型和软件开发方面的实践经历。研究生阶段，我希望学习大模型和智能体。

I 2. Please introduce your undergraduate university. ::

Answer:

My university is Wuhan University of Science and Technology. It is a university with a good learning environment. The school provides many chances for students to practice and do research. I have learned computer science and taken part in several projects here.

翻译:

我的本科院校是武汉科技大学。这是一所学习环境良好的大学。学校为学生提供了很多实践和科研机会。我在这里学习了计算机科学，也参加了几个项目。

2. 择校与读研动机类**3. Why do you choose to study in our university or department? ..****Answer:**

Your university has strong teachers and good research resources. Your research direction is close to my interests, such as AI, big models, and computer vision. I hope to learn from your teachers and do useful research here.

翻译:

贵校师资力量强，科研资源好。贵校的研究方向与我的兴趣接近，比如人工智能、大模型和计算机视觉。我希望在这里向老师学习，做一些有用的研究。

4. Why do you choose to continue your further study? ..**Answer:**

My undergraduate study gave me a good start, but I still need more theory and

research training. Graduate study can help me learn how to find problems and solve them. It can also help me improve my research and coding skills.

翻译：

本科阶段的学习为我打下了基础，但我还需要更多理论和科研训练。研究生学习可以帮助我学会发现问题和解决问题，也能提升我的科研和编程能力。

5. Why did you choose this major? ::

Answer:

I chose computer science because I like technology and problem solving. I enjoy turning an idea into a working program. AI also has many real-world uses, so I want to study it more deeply.

翻译：

我选择计算机科学，是因为我喜欢技术和解决问题。我喜欢把一个想法变成可以运行的程序。人工智能有很多实际用途，所以我想继续深入学习。

6. What do you know about our department? ::

Answer:

I know that your department has many good teachers and research teams. It works on important areas such as artificial intelligence, computer vision, and software systems. I have read about your teachers' research, and I am very interested in it.

翻译：

我了解到贵系有很多优秀的老师和科研团队，研究人工智能、计算机视觉和软件系统等重要方向。我阅读过一些老师的研究介绍，对这些方向很感兴趣。

3. 科研与学术经历类

7. Please introduce your research experience in English. ..

Answer:

I have worked on two main AI projects. In a steel defect project, I used the CBAM attention method in YOLOv8. The [mAP@0.5] increased from 77.5% to about 80%–81%. I also worked on a real-time multimodal AI agent and learned about data sampling, model calls, and system testing.

翻译:

我主要做过两个人工智能项目。在钢材缺陷检测项目中，我在YOLOv8中加入了CBAM注意力机制，使[mAP@0.5]从77.5%提高到约80%—81%。我还参与了实时多模态人工智能智能体项目，学习了数据采样、模型调用和系统测试。

8. Please introduce your project in English. ..

Answer:

My project is called CamTalk. It is a real-time AI agent that can see, hear, and talk. I designed a key-frame sampling method, so the upload data in quiet time was reduced by about 80%. The system delay was less than 0.5 seconds.

翻译:

我的项目叫CamTalk。它是一个可以看、听和说话的实时人工智能智能体。我设计了关键帧采样方法，使安静时的数据上传量减少了约80%。系统延迟小于0.5秒。

9. What is your research direction or interest? ..

Answer:

I am interested in big models, intelligent agents, and multimodal AI. I want to study how to make AI systems more useful, stable, and easy to use. I am also interested in AI safety and computer vision.

翻译:

我对大模型、智能体和多模态人工智能感兴趣。我希望研究如何让人工智能系统更有用、更稳定、更容易使用。我也对人工智能安全和计算机视觉感兴趣。

10. Where did your paper come from? ..**Answer:**

My research idea came from a real problem in steel production. Cracks were hard to detect because their texture was weak. I studied the wrong results, added the CBAM method, and checked it with comparison experiments. At present, I am still improving my research and writing skills.

翻译:

我的研究想法来自钢材生产中的一个实际问题。由于裂纹纹理较弱，所以很难检测。我分析了错误结果，加入CBAM方法，并通过对比实验进行验证。目前，我还在继续提高自己的科研和写作能力。

11. What was the most memorable activity you participated in during undergraduate studies? ..**Answer:**

The most memorable activity was the steel defect detection project. I found a real problem, designed a solution, and tested it with data. The project won a school

silver award, and the technology was used by a company. I learned a lot from this process.

翻译：

本科期间最难忘的是钢材缺陷检测项目。我发现了一个实际问题，设计了解决方法，并用数据进行测试。这个项目获得了校级银奖，相关技术也被企业采用。我从这个过程中学到了很多。

4. 未来规划类

12. What would you like to be doing five years after graduation? ..

Answer:

Five years after graduation, I hope to work as an AI engineer or researcher. I want to take part in useful AI projects and solve real problems. I also hope to keep learning new technology.

翻译：

毕业五年后，我希望成为一名人工智能工程师或研究人员。我想参与有用的人工智能项目，解决实际问题。我也希望继续学习新技术。

13. What is your future study plan? ..

Answer:

First, I will build a stronger foundation in machine learning and mathematics. Then I will read papers, repeat good experiments, and learn research methods. Finally, I hope to finish a useful project and write a good paper.

翻译：

首先，我会加强机器学习和数学基础。然后阅读论文、复现实验，学习科研方法。最后，我希望完成一个有用的项目并写出一篇好的论文。

14. What are your expectations for research outcomes? ..

Answer:

I hope to get reliable results, not only a high number. I want my method to work well on real data and solve a real problem. If possible, I hope to publish a paper and make a useful system.

翻译：

我希望得到可靠的结果，而不只是追求一个高数字。我希望我的方法能在真实数据上表现良好，并解决实际问题。如果有机会，我希望发表论文并做出有用的系统。

15. Do you have plans to pursue a PhD? ..

Answer:

I am open to this choice. First, I want to finish my master's study and learn more about research. If I find a topic I really like and make progress, I may continue to study for a PhD.

翻译：

我愿意考虑读博。首先，我想完成硕士学习，进一步了解科研。如果我找到真正喜欢的方向并取得进展，我可能会继续攻读博士。

5. 个人特质类

16. What are your personal strengths? ..

Answer:

I learn quickly and I like solving problems. I can turn a plan into code and work well with other people. I also stay patient when a problem is difficult.

翻译:

我学习快，也喜欢解决问题。我能把计划变成代码，并且能够和他人良好合作。遇到困难问题时，我也能保持耐心。

17. What is your greatest weakness? ..

Answer:

My research experience is still limited, and sometimes I spend too much time on details. Now I am learning to plan my time better. I also read papers and ask teachers for advice.

翻译:

我的科研经历还不够多，有时会在细节上花太多时间。现在我正在学习更好地安排时间，也会通过阅读论文和请教老师来改进。

18. What is your greatest achievement that you are proud of? ..

Answer:

I am proud of leading the CamTalk project. I helped build a real-time multimodal AI agent and reduced quiet-time data upload by about 80%. This project taught me how to take a project from an idea to a working system.

翻译：

我最自豪的是负责CamTalk项目。我参与构建了实时多模态人工智能智能体，使安静时的数据上传量减少了约80%。这个项目让我学会了如何把一个想法做成可运行的系统。

19. What role do you prefer to play in a team? ..

Answer:

I like to be the person who turns ideas into action. I can discuss the plan with the team and then finish the coding and testing. I am also willing to help other team members.

翻译：

我喜欢做把想法变成行动的人。我可以和团队讨论计划，然后完成编码和测试。我也愿意帮助其他团队成员。

20. Use three words to describe yourself. ..

Answer:

I would use three words: responsible, practical, and curious. I finish my work carefully, like solving real problems, and enjoy learning new things.

翻译：

我会用三个词形容自己：负责、务实、好奇。我会认真完成工作，喜欢解决实际问题，也喜欢学习新东西。

6. 生活与通识类

21. What are your hobbies? ..

Answer:

In my free time, I like listening to music, walking, and reading technology news. These activities help me relax. I also enjoy trying new software tools.

翻译:

空闲时间我喜欢听音乐、散步和阅读科技新闻。这些活动能帮助我放松。我也喜欢尝试新的软件工具。

22. What is your favorite movie or book? ..

Answer:

My favorite movie is *The Pursuit of Happyness*. It tells us to keep trying when life is hard. I like its positive message.

翻译:

我最喜欢的电影是《当幸福来敲门》。它告诉我们在生活困难时要继续努力。我喜欢它积极向上的主题。

23. What's your favorite season? Why? ..

Answer:

My favorite season is autumn. The weather is cool and comfortable. It is a good time to study, walk, and make new plans.

翻译:

我最喜欢秋天。天气凉爽舒适，适合学习、散步和制定新的计划。

24. Describe your hometown. ..

Answer:

My hometown is in Hubei Province. It has a long history and many tasty local foods. People there are friendly and warm. I enjoy going home during holidays.

翻译:

我的家乡在湖北省。那里历史悠久，也有很多美食。那里的人友好热情。我喜欢在假期回家。

25. How do you usually deal with stress? ..

Answer:

I first make a clear plan and divide a big task into small tasks. Then I finish them one by one. When I feel tired, I take a short walk or listen to music.

翻译:

我会先制定清晰的计划，把大任务分成小任务，然后逐个完成。感到疲惫时，我会散步一会儿或听音乐。

26. What is the difference between undergraduate and graduate studies? ..

Answer:

Undergraduate study focuses more on basic knowledge. Graduate study focuses more on research and independent work. Graduate students need to ask questions and find answers by themselves.

翻译：

本科学习更重视基础知识。研究生学习更重视科研和独立完成工作。研究生需要自己提出问题并寻找答案。

| 27. What qualities should a researcher possess? ::

Answer:

A researcher should be patient, careful, and honest. He or she should be able to find problems and test ideas. Good teamwork is also important.

翻译：

科研人员应该有耐心、细心并且诚实。他们应该能够发现问题并验证想法。良好的团队合作也很重要。

| 28. What do you think is more important, choice or hard work? ::

Answer:

I think both are important. A good choice gives us the right direction, and hard work helps us reach the goal. Without hard work, a good choice is not enough.

翻译：

我认为两者都重要。好的选择能给我们正确的方向，努力能帮助我们达到目标。没有努力，好的选择也不够。

| 29. What would you do if you failed this interview? ::

Answer:

I would accept the result and find out what I need to improve. Then I would keep studying and prepare for the next chance. Failure is not the end for me.

翻译:

我会接受结果，找出自己需要改进的地方。然后继续学习，为下一次机会做准备。失败对我来说不是终点。
